

The Annual Don LaBerge Memorial Golf Tournament is a tournament originally started by ALS Environmental to support Alberta Cancer Foundation, bring together companies in our specialized industry and in remembrance of the great contribution Don LaBerge brought to our small community.

2007 marked the first year of this tournament and the contribution to the Alberta Cancer Foundation was \$9,005. In 2008 the contribution was \$13,982.

In 2009 K'(Prime) Technologies offered to take on coordinating this annual event with the Western Enviro-Agricultural Laboratory Association agreeing to use their name in support of the cause. K'(Prime)'s involvement not only kept the tournament from disappearing altogether but opened the opportunity for participation of all companies in our field.

The first year of K'(Prime)'s leadership skyrocketed the funds raised for the Alberta Cancer Foundation to \$24,607, almost double the previous year and triple the year prior.

The completion of the 2010 tournament, although the economic downturn and inclement weather had an effect, resulted in a donation of \$20,470.

2011 showed a definite recovery in the funds raised for the Alberta Cancer Foundation Patient Financial Assistance with a contribution of \$22,600. A comfortable number of participants and great sponsors mixed with beautiful 30 degree weather boasted an excellent time had by all in attendance.

This tournament has raised a grand total of \$90,664 over the past five years and K'(Prime) has agreed to continue coordinating this event as long as companies within our field want to continue to attend.

On behalf of the Don LaBerge Memorial Golf Tournament, K'(Prime) Technologies would like to thank the following sponsors for their contribution to this event in 2011:

| | |
|---|--|
