

Position:

Service Associate (Calgary)

Employer:

K'(Prime) Technologies Inc.
Unit 105, 90 Freeport Blvd. NE
Calgary, Alberta T3J 5J9

Contact:

Phone: (403) 226-5897
Fax: (403) 226-5738
E-mail: resumes@kprime.net
Web: www.kprime.net

Education:

Your specific educational qualifications are not critical, but your interest in science and desire to learn are important.

About the Company:

The focus of K'(Prime) Technologies is to sell, service and support laboratory equipment in a cost effective manner. Our clients include various oil and gas service labs, refinery labs, government research facilities, university research labs, post-secondary student labs, healthcare facilities and a wide range of analytical laboratories. K'(Prime) Technologies is an Alternative Service Provider (ASP) for Agilent Technologies Canada, in Western Canada.

K'(Prime) Technologies is the largest supplier of laboratory instrumentation in Western Canada, and has representatives performing on-site repair services, installation of new products, training, and technical sales. The main office is based in Calgary, Alberta, and features laboratory facilities, warehouse, repair center, offices and a customer training facility. K'(Prime) has sales and service representatives in Montreal, Winnipeg, Saskatoon, Regina, Edmonton, Calgary and Vancouver.

In addition to a wage based on education and experience, we offer a comprehensive benefits plan, reimbursement of expenses and profit sharing. A superior base salary will be complemented with a structured sales commission. K'(Prime) Technologies provides a stimulating and exciting environment for its employees. The Calgary position will be based out of the Calgary office.

Qualifications:

The successful candidate will possess strong interpersonal skills, and must have exceptional written and verbal communication capabilities. A strong mechanical aptitude, effective computer skills and a demonstrated ability to work independently are important in this position. The successful candidate should have an outgoing personality, be very self-motivated and feel comfortable in an environment where the fine details are critical. Experience with GC, IC and HPLC would be helpful, but is not required. Candidates who demonstrate or explain these qualifications in their cover letter and show enthusiasm about why they are the right candidate for this position will be given preference over those that randomly send their resume to the e-mail address. Your specific educational qualifications are not critical, but your interest in science and desire to learn are important.

Duties:

- Follow preventative maintenance procedures on laboratory instrumentation.
- Perform validation services on instruments found in regulated laboratory environments.
- Carry out basic repairs on laboratory instrumentation represented by K'(Prime) Technologies.
- Mechanical, electrical and microscale plumbing work.
- Ability to travel as required throughout Alberta and other locations in Canada for backup coverage (the majority of the work will be in Alberta).
- Ability to work independently; provide feedback to colleagues on a regular basis.
- Ability to set up and troubleshoot small networks (Windows 2000, Windows XP). Simple computer programming and computer repair would be an asset.
- Travel for training and field work will be required; the successful candidate must be able to travel to the US.

Compensation:

Compensation is based upon experience and qualifications. K'(Prime) Technologies has a competitive performance-based compensation package. K'(Prime) Technologies covers all expenses associated with field work and supplies the necessary tools (computer, phone, toolkit) to carry out this job in a safe and productive manner. This position is considered an entry level position to the service department at K'(Prime) Technologies and may be considered transitional.

Location:

The position is based out of the national office in Calgary, Alberta.

Application Procedure:

Application by e-mail only; subject line of e-mail should be "Service Associate (Calgary)." Individual confirmation of receipt of your resume will be sent back to you directly. A second e-mail will be sent to those individuals qualifying for an interview. Candidates sending resumes by mail, fax, or making requests by phone will not be included in the selection process.

Application Deadline:

Position is currently open and may be closed without notice when a suitable candidate is found.
